**SAP Signavio**

Unlock the full value of a
Business Transformation
with **RISE with SAP**
and **SAP Signavio**

September 2023

SAP

We radically change the way transformation is done

**SAP Signavio** offers a holistic solution

that not only ensures a smooth cloud migration
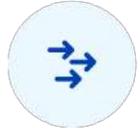

but also **delivers long-term value** through

enhanced

process efficiency, compliance,
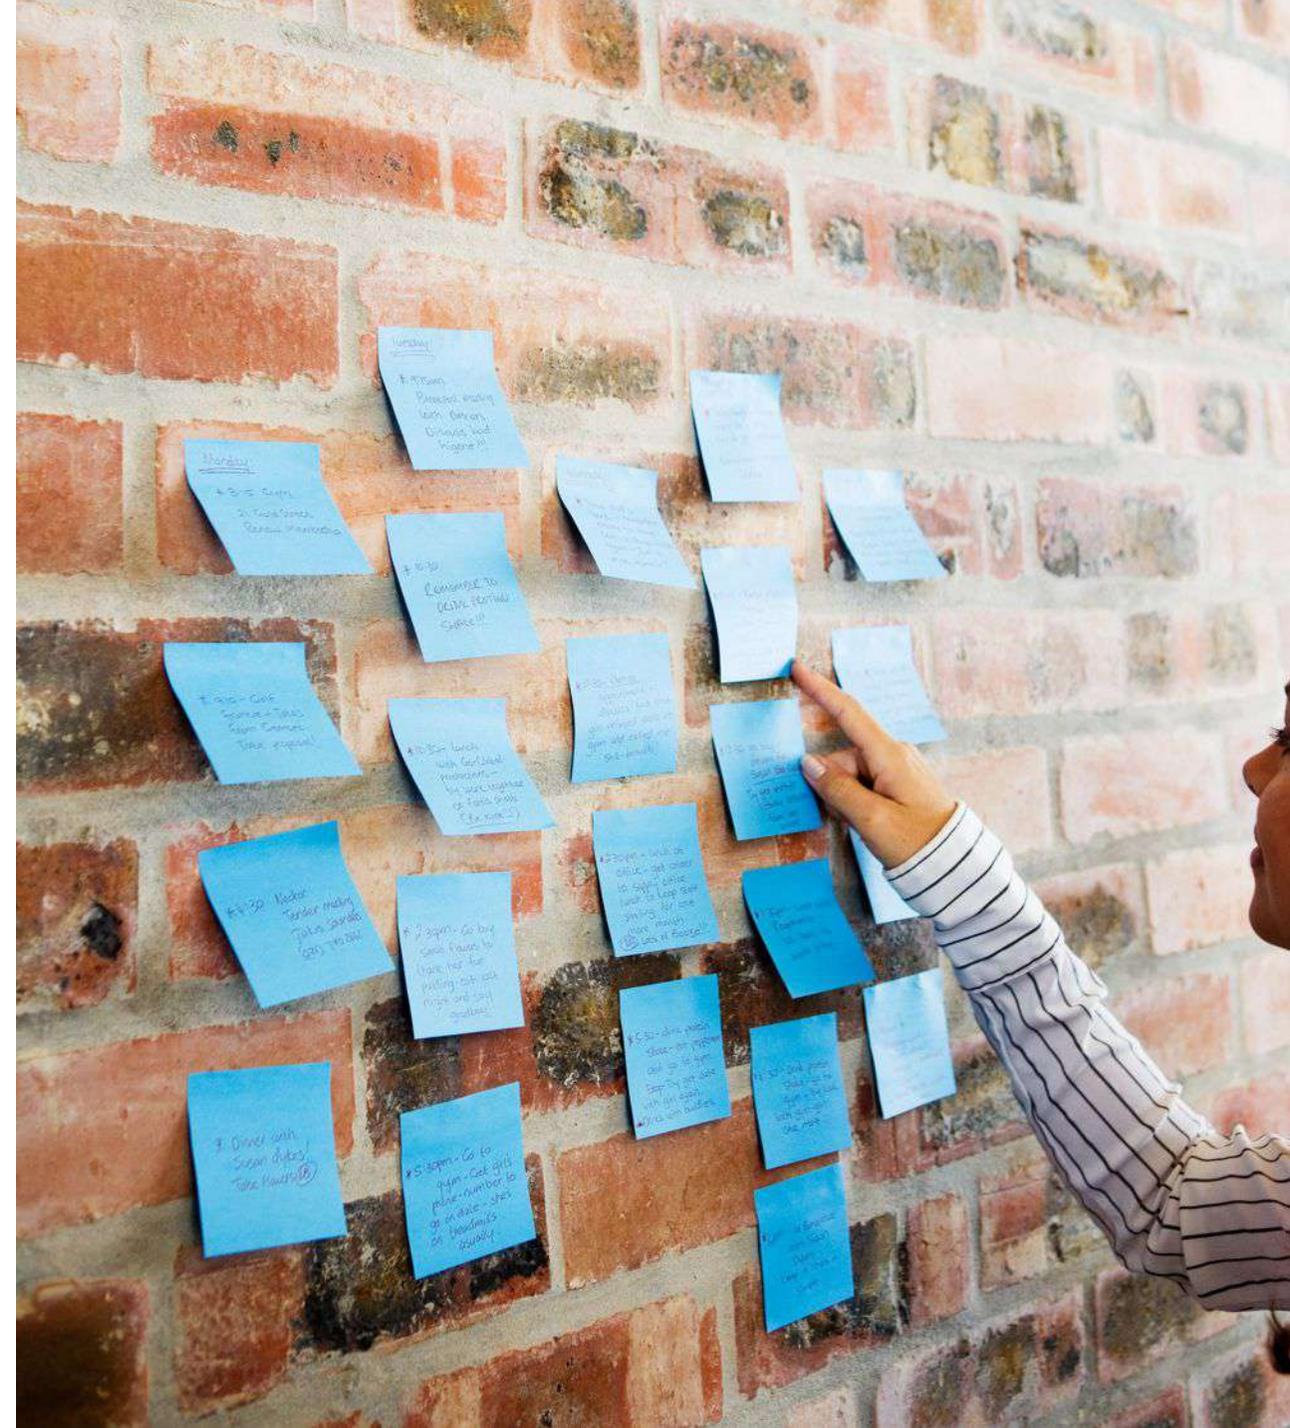

and continuous improvement.

Challenges

How do you make your transformation successful as fast as possible?

How do you ensure that your transformation adds value?

How do you ensure that change is safeguarded and manageable?

SAP Signavio Process Transformation Suite

Make processes central to your business

With our SAP Signavio Process Transformation Suite, organizations can understand, proactively manage and optimize their business processes to achieve the agility needed for successful change.
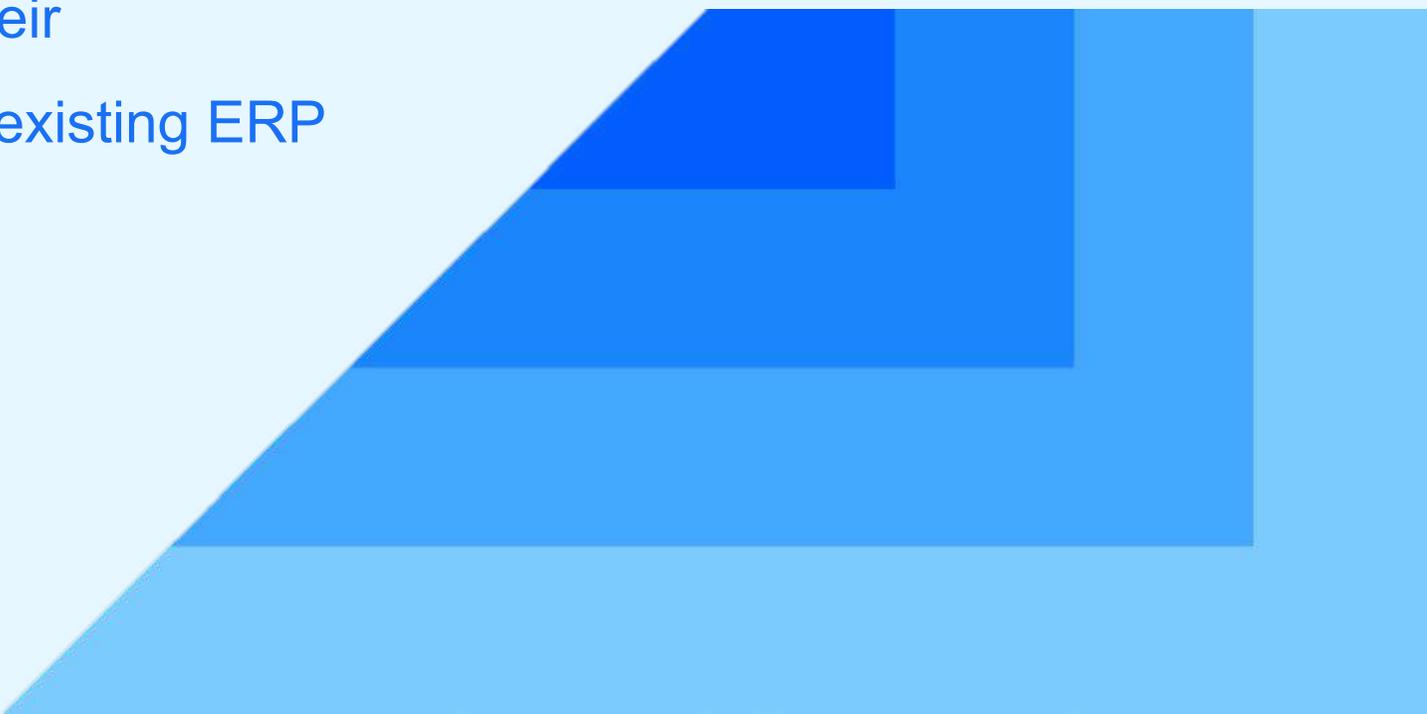

*Simplified SAP Signavio UI

From strategy to execution

SAP Signavio Process Transformation Suite

to radically accelerate and digitize their

transformation project, utilizing their existing ERP

data,

in a matter of hours

How can
SAP Signavio
support
RISE with SAP ?

How does SAP Signavio help customers make their transformation successful and as fast as possible?

SAP Signavio accelerates transformations by:

Identifying opportunities for process improvements and **sharpening the transformation scope**

Designing to-be process fast by combining SAP best practices and **reverse engineered company best run process execution**

Providing transparency and accessibility of process model to all stakeholders, reducing complexity and **minimizing the risk of misalignment and iterations**
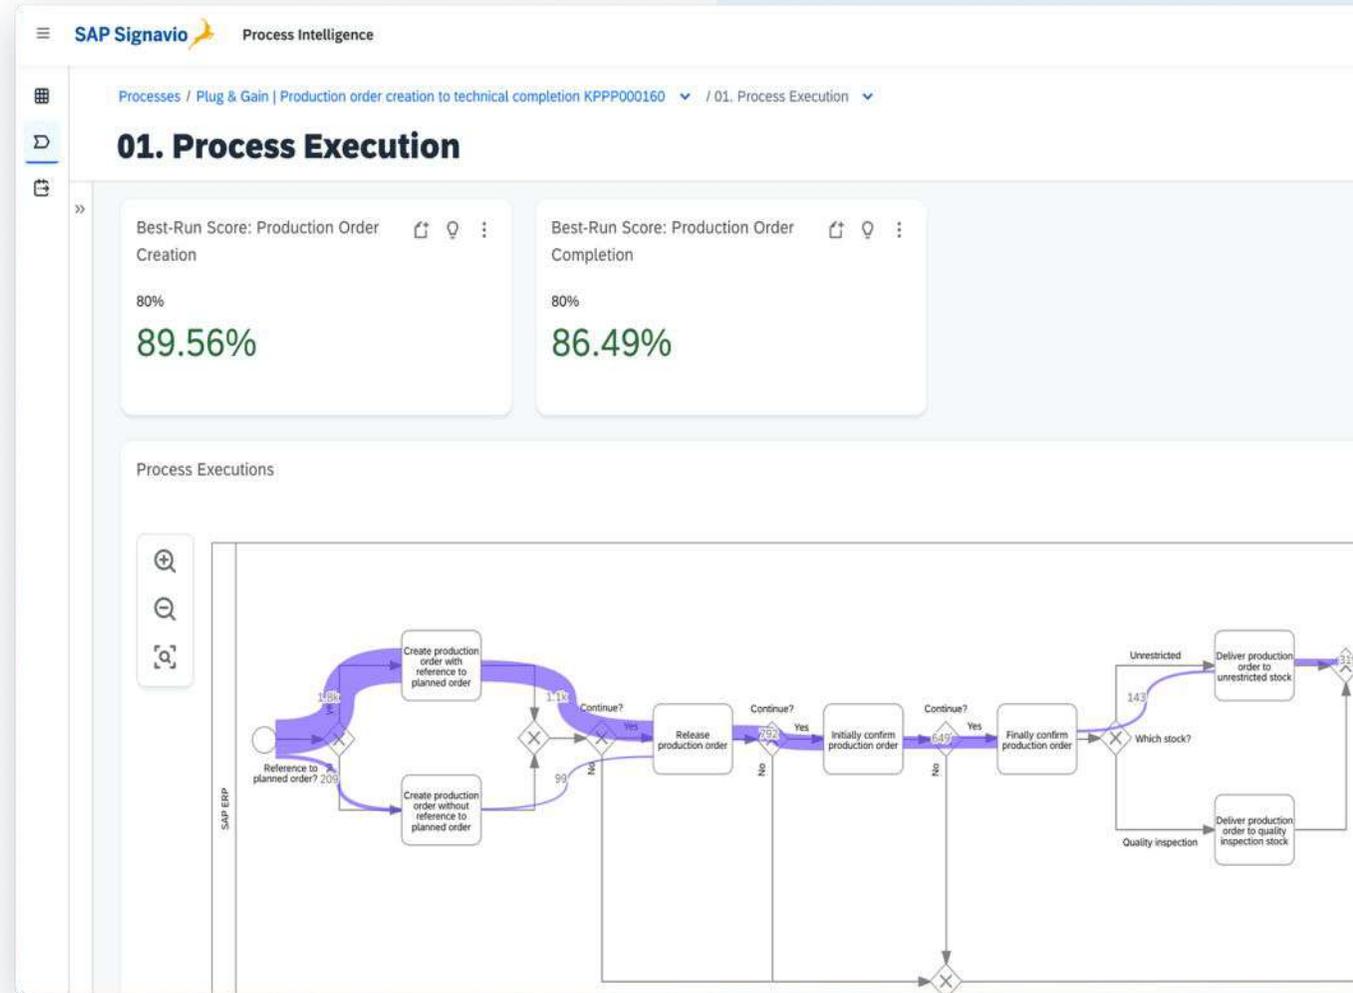

How does SAP Signavio ensure that your transformation adds value?

SAP Signavio adds value for transformations by:

Providing a data-driven analysis determining the value potential accurately, based on evidence

Showing **actionable insights**, guidance, and recommendations

Ensuring that values and metrics are considered during process design and **meticulously monitored for value realization** throughout the run phase

# How does SAP Signavio ensure that change is manageable for you?

SAP Signavio manages change during transformations by:

Securing management buy-in based on identified value potential

Ensuring strong support for the transformation process

Involving all relevant parties and fostering collaboration

Mitigating risks of misalignment between business and IT leveraging strong integration of process and solution worlds while driving successful outcomes

SAP Signavio meets SAP Activate

Discover

Identify processes with the highest improvement potential in their as-is processes

Substantiate the calculation of the RISE with SAP business case

Customers to decide with confidence

Prepare

Reverse engineer customers' current process execution and map them against the desired to-be best practices

Provide transparency on the transformation gaps

Reduce project complexity

Explore

Define the future to-be processes leveraging SAP best practice processes

Come up with suitable and efficient to-be processes

Combine best practices with business requirements

Embrace both 'fit to standard' for solutions and 'fit to value' for business outcomes.

Realize

Provide a seamless handshake between to-be process models with SAP Solution Manager / SAP Cloud ALM to orchestrate the implementation.

Ensure process-oriented key user enablement

Provide process-oriented test execution

Release processes into the organization with process enablement at scale

Deploy

Run

Ensure ongoing process monitoring and control

Reuse of test architectures in productive operations
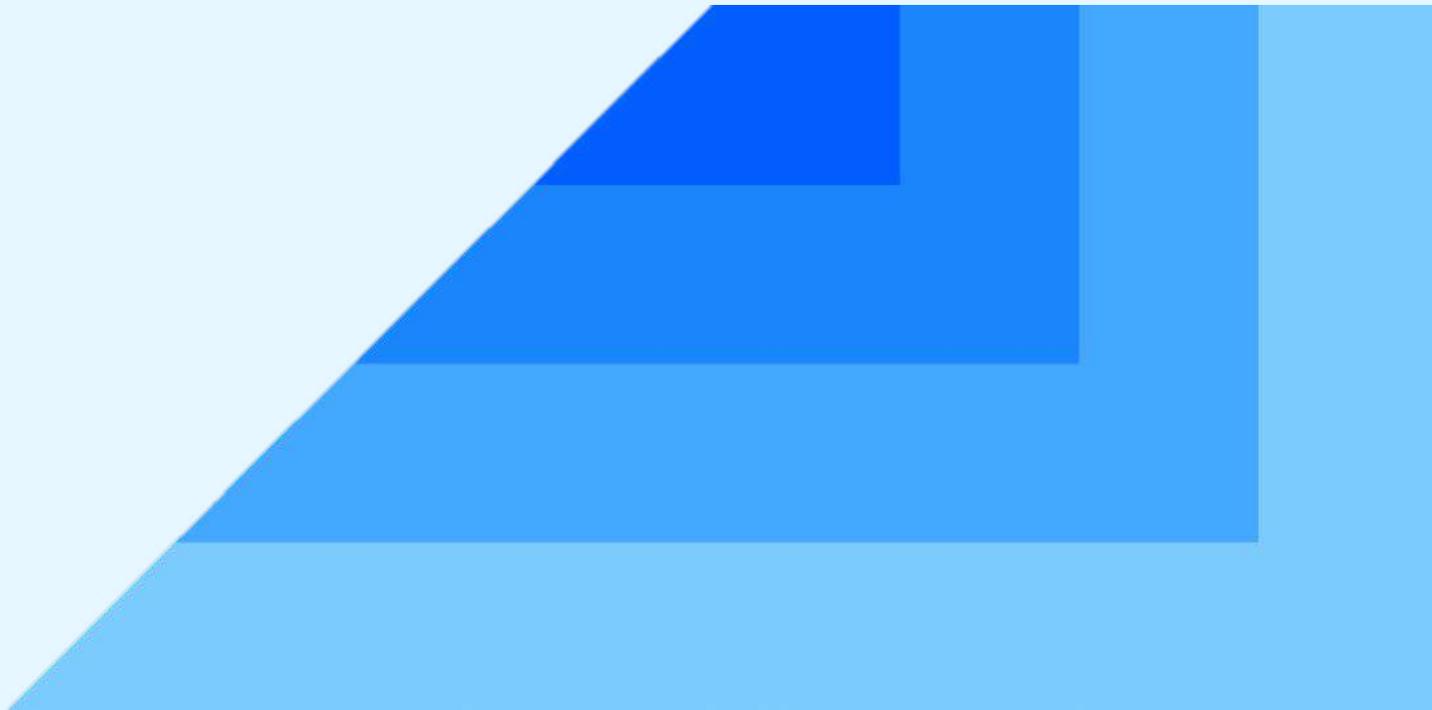

Foster continuous process optimization and
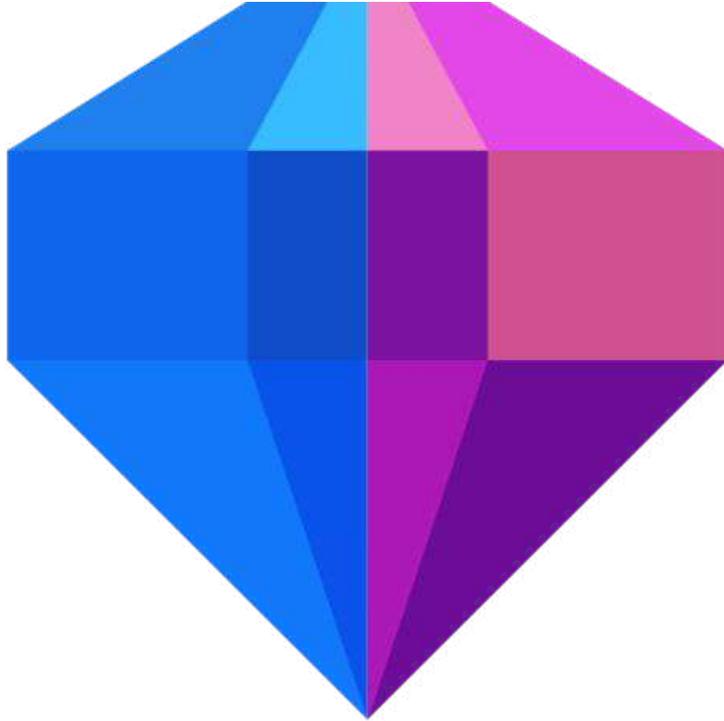

Benefit from innovation recommendations
